 +34 671 356 909

 Pontevedra, Spain.

Profile:

Passionate about technology with a creative mindset, always eager to innovate and experiment. My specialty is front-end development, where I bring designs and experiences to life that people love. Additionally, I can handle back-end tasks when necessary to achieve my goals. I enjoy teamwork, contributing ideas, and continuously improving products.

Experience:

Alineasol • Front End Developer

Pontevedra 2017 - 2025

Developed and maintained a CRM for both in-house use and clients, including reporting modules, dynamic interface creation tools, and continuous improvements in design and user experience (PHP, JavaScript, CSS3).

Led the development of a project with responsive web, iOS, and Android versions. Designed a modular architecture that allowed personalized deployment for over 20 clients, simplifying app publication across different app stores (Angular, Ionic y Node).

Created various internal tools to automate workflows and deployments, as well as information portals that improved team efficiency and productivity (React, Gradle, PHP, Javascript).

Icon Web • Web Design Intern

Pontevedra 2016

Internship at a web design and marketing agency, transforming designs into real websites (Wordpress).

Enotrac • Programming & Systems Intern

London 2016

Internship at a railway consulting firm, working in the systems and development department, migrating databases, maintaining, and installing new server systems in the offices.

Ence • Prácticas de Sistemas

Pontevedra 2013

Provided maintenance and support for all IT equipment in the factory. Developed new systems to automate processes (Scripting, unattended installation systems).

Education:

IES Chan do Monte

2015 - 2016 Higher Technician in Multiplatform Application Development.

2013 - 2015 Higher Technician in Web Application Development.

2011 - 2013 Technician in Microcomputer Systems and Networks.
